THE TRUSTEE'S MEETING

Monthly Reports and Routine Business the Order

STILL BUILDING

Over Thirty-Three Thousand Dollars' Worth of Permits Issued During Month—Just the Average Growth

Thursday being the first regular meeting in the month, reports were submitted.

The City Marshal's report showed that \$16.50 had been collected for licenses and same turned over to the City Treasurer.

The Recorder, Judge Melrose, reported \$80 collected during the month. Most of this came from those who failed to resist the "speed disease."

J. L. Fishback, Street Superintendent, submitted his report, showing \$35.80 collected from permits issued and dirt sold.

The building inspector had collected \$84.91 for permits.

The City Treasurer's, S. E. Brown's report was as follows:

GENERAL FUND

Balance April 1 . . . \$3,420.16

Receipts for month . . . 157.21

Total . . . \$3,577.37

Disbursements on warrants . . . 604.34

Balance on hand May 1 . . . \$2,973.03

LIBRARY FUND

Balance April 1 . . . \$ 676.77

Receipts for month . . . 8.00

Total . . . \$ 684.77

Disbursements for month . . . 53.45

Balance May 1 . . . \$ 631.32

Balance in all funds . . . \$3,557.37

S. M. Street's, City Clerk, reported as follows:

April 1, balance on hand . . . \$3,420.16

From Building Inspector . . . \$ 84.91

From Marshal . . . 16.50

From Street Superintendent . . . 35.80

From Recorder . . . 80.00

Total . . . \$3,637.37

Disbursements on warrants . . . 975.13

Balance May 1st . . . \$2,662.18

The building permits issued for the month were:

The building permits issued for the month were:

H. Cornwall, teaming . . . 40.30

W. E. Anderson, supplies . . . 8.00

by treaty, such law is void.

That this is the supreme law of the land is well settled.

The leading question for determination, then, in connection with the proposed anti-alien legislation at Sacramento, is whether such legislation is inimical to the treaty rights of the Japanese. One of the provisions of our treaty with Japan is that its subjects may "lease land for commercial purposes."

The legislation proposed aims to put limitations and restrictions on the exercise of this treaty right—as, for example, to fix the maximum duration or term of a lease of land to a Japanese subject to three years.

But there is another question quite as important, and that is whether a Japanese subject is not eligible to citizenship of the United States. The answer to this question turns upon whether the Japanese are Chinese. It is held by California courts that Japanese and Chinese are both of the Mongolian race, and thus read into the naturalization law of Congress, along with the word Chinese, the word Japanese, raising a question, it would seem, that would require an intervention by a writ somewhat in the nature of Indentate nomenis, to determine. The "soft impeachment" that he is the same as a "Chink" is denied by Browne.

The following synopsis of parts of the law relating to alienage, will help to an understanding of the complications of the situation.

Who May Become a Citizen?

Any alien except Chinese, may be naturalized and become a citizen of the United States, on certain conditions that apply alike to all; and

Any alien (except Chinese) who is twenty-one years of age or over, enlisting in the armies of the United States, either in the regular or volunteer, and the shall be honorably discharged therefrom, can be admitted to citizenship without the preliminary declaration of his intentions, but he must prove one year's residence in the United States.

Coolieism Prohibited.

The presence of foreigners ineligible to become citizens of the United States is declared to be dangerous to the well-being of the state, and the legislature shall discourage their immigration by all the means within its power. Asiatic coolieism is a form of human slavery, and is forever prohibited in this state, and all contracts for coolie labor shall be void, etc., etc. Sec. 4, Art. XIX, Constitution of California.

Rights of Foreign Residents.

Foreigners of the white race, or of African descent, eligible to become citizens of the United States, under the naturalization laws thereof, while residents of this state, shall have the same rights in respect to the acquisition, possession, enjoyment, transmission and inheritance of all property, other than real estate, as native-born citizens; . . . and provided further that the legislature may, by statute provide for the disposition of real estate which shall hereafter be acquired by such aliens by descent or devise. (Claiming to belong to the Aryan race, the Japanese insists he is of the "white race.")

N. C. Burch.

CELEBRATES 74th BIRTHDAY.

An unusually pleasing event held recently was the birthday anniversary of Mrs. Mollere, mother of Mrs. F. E. Peters, the affair being held at the home of Mrs. Peters of Glendale avenue.

The affair was the 74th anniversary of the birth of Mrs. Mollere, who, although quite aged in years, is really young in spirit and retains unusually active mental qualities. For the event the pretty home was decorated with many seasonable flowers and greenery. Games and conversation were enjoyed and a course dinner was served at 6:30 o'clock.

The guests who enjoyed this pleasant affair were Mr. and Mrs. Hal H. Davenport and family, Mr. and Mrs. G. N. Lunn, Miss Bertha Lunn and Mr. H. W. Davenport, who is visiting several months in Southern California as the guest of his brother, Hal H. Davenport.

The Tuesday Afternoon Club will give an operetta, "The House That Jack Built," for the benefit of the clubhouse fund, which will be given at the high school auditorium on the evenings of May 9th and 10th, and a matinee on May 10th. The cast includes about sixty high school girls and the play will be given under the direction of Mrs. James Hicks.

CIVIC CLUB MEETING

Important Subjects Discussed. Committees Appointed

WATER QUESTION

Earnestly Considered and Club Unanimously in Favor of Bettering Subject—Matter to be Thoroughly Investigated

A good sized and enthusiastic meeting of the Civic Club met in the club rooms, in the K. of P. Hall Tuesday night and earnestly discussed problems affecting the welfare of Tropico.

Owing to the illness and absence of Secretary Earl Clemens, Charles Phillips was elected secretary pro tem.

President Dan Johnson was in the chair after an absence of about six weeks at Venice. Mr. Johnson says Venice is fine, but cannot compare with Tropico.

Reports from the Park and Street Marking Committee was submitted, and drawings made by G. N. Adams of the proposed park were inspected. After discussing the work done by the committee instructions were given to the committee to continue the work and to submit a detailed report as soon as practicable. Mr. H. H. Coles was added to the committee. The committee will meet at the Sentinel office Friday evening and work will be vigorously pushed.

Harry L. Edwards called attention to the Sawtelle Booster's Day Trip and he was appointed a committee of one to take the matter up with the City Trustees Thursday night and to assure the Trustees that the Civic Club would heartily cooperate with the Trustees in any attention or courtesies they might decide to extend our visitors. President Johnson informed the meeting that the subject for the evening was "The Water Question," and called on Dr. W. C. Mabry, health officer, to tell of the sanitary condition of the water supply and reservoir. Dr. Mabry reiterated his statements of last meeting and said that it was his intention to go before the Trustees, at their next meeting, and to learn as to what backing he could expect from them in his proposed effort to have the water company fence and screen the reservoir.

Mr. Dwight Griswold was then called for as being one of the best posted men in the Valley on the water situation. Mr. Griswold made a very interesting and instructive talk and gave much valuable information on the subject. Mr. Griswold made the positive statement that Tropico had a supply of good pure water to meet every need of as large and dense a population as the city would ever have. The only thing was to protect and develop this supply.

He said the wells on San Fernando road had been thoroughly tested and that this supply was not only practically inexhaustible, but was naturally protected from surface water and seepage by a thick stratum of heavy impervious clay.

In addition to this supply tests had been made up towards the head of the Verdugo, at 1000 feet elevation above the city and that these tests had shown conclusively that immense bodies of water could be developed in that section and that this source could be jointly protected and developed by Glendale and Tropico.

He also said that any one familiar with Tropico's water could tell the approximate depth of the water in the reservoir by the taste of the water.

A general discussion followed Mr. Griswold's talk and the statement was made that all the water could be pumped from the San Fernando wells and furnished the users in the city for a cost of one-eighth of what the company is now charging the consumers, and as this water is only pumped for four or five months out of the year that the talk about the company not making a profit was very much "hot air."

The statement was also made that the water in reservoir was being maintained, at this time, at only from 2 to 4 feet and this afforded but little if any fire protection, and that the curbing in the San Fernando well is liable to collapse at any time. This would put the well out of commission for a month or six weeks, even if it did not necessitate the digging of a new well. That while an expenditure of from \$300 to \$400 would put the well in good

shape yet the company had failed to make this improvement, and that the season when the well would be needed was upon us, and the well in no condition to stand a strain.

The possibility of obtaining Owens river water was discussed but the opinion of those present was that this was a very indefinite and uncertain proposition and liable to be very costly to Tropico. The city would not only have to contract and pay now for all the water it expected to use in ten or fifteen years, and that it would have to pay for this water at the rate of from fifteen to seventeen hundred dollars an inch, and to furnish its own distributing system and build its own canal, either from the reservoir or aqueduct, to bring the water to Tropico. This would not only be expensive, but would of necessity force the city to enter into competition with the present water company. The statement was made that it might be advisable to consider the Owens river water if Tropico did not have a sufficient supply of water of its own.

After a full discussion of the water situation Mr. Harry L. Edwards advanced the proposition that the city take the necessary steps to purchase the present system. This suggestion was met with hearty approval of all present; every man present expressing himself as being in favor of the city owning its own water system. There was a difference in opinion as to how such a system should be obtained, and a difference as to what means should be used; but all agreed that the only solution apparent at this time was for the city to own its own water supply and system.

In accordance with this unanimity of thought, a committee of five composed of Mr. Dwight Griswold, N. C. Burch, C. T. Van Etton, Frank B. McKenney, and Harry L. Edwards, was appointed to make a thorough investigation and compile full data in reference to the water situation, and to report same to the club at the earliest practical moment.

SEE THE WHOLE THING.

San Diego, Cal., May 6.—One of the most novel exhibition plans so far offered the San Diego 1915 Exposition is that of a motion picture concessionaire, who has secured the privilege of not only showing "movies" to the exposition visitors, but showing them how the picture-plays are produced, and all under the same roof.

The concessionaire's plans call for a large building, one end of which is to be composed largely of plate-glass. This end of the building is to contain the studio, and the audience looks through the plate-glass walls at the enactment of the player-folk before the camera, as the film is produced. As the film-reels are taken from the motion-picture camera to the dark rooms for developing and printing, the audience, still behind the plate-glass walls, follows it, and sees the chemical process through which it is put before it becomes a picture, or, in reality, a series of pictures.

As the film is developed, printed and dried, the audience follows the process through into the theatre, where it sees the scenes it previously saw enacted before the camera projected upon the screen.

Under the concessionaire's contract, six films a day are to be produced, which will compass dramas, comedies, melodramas, society plays and every kind of production familiar to the "movie" audience.

BOOSTERS COMING.

Sawtelle has organized a "Boosters Day Trip" and expects to visit Tropico Tuesday, May 13, with at least fifty automobile loads of boosters from that thriving city. They will bring with them the Sawtelle Municipal Band of 25 pieces, and each man is expected to tell of the wonders at Sawtelle possesses, and they want an opportunity of meeting as many of the Tropico people as they can.

They will reach Tropico about 9:30 Tuesday morning. From Tropico they expect to visit Glendale, Eagle Rock, Pasadena and Monrovia, and they cordially invite as many of the Tropico people to accompany them as can find the time and the machines. Let as many of Tropico people as possible turn out and show the boosters from Sawtelle that we can do a little boosting, too.

When a fly lights on your head you can't tell whether it is sitting or standing. It is different with a bee.

GREAT WORK BEING DONE

Fresno Meeting Successful, Encouraging and Enthusiastic

HARMONY PREVAILS

The Women of the State Recognize Responsibilities and the Great Work Confronting them and are Meeting their Problems

By Mrs. Ella W. Richardson

The meeting of the California Federation of Women's Clubs, held at Fresno last week was a most successful meeting. Club work unquestionably is doing much to broaden and enlarge the scope of the woman's world. About 600 women from all parts of the state were in attendance and of these 287 were authorized delegates.

The keynote of the convention was "Learn." There is no reason for ignorance, and ignorance is no longer considered bliss. The club women realize the responsibility resting upon them and the power placed in their hands.

The reasoning faculty is the highest quality and greatest gift to mankind, and club women recognize their individual and collective responsibility.

The progress they make, their advancement in music, art, literature and higher culture, and the wider knowledge they manifest is in turn reflected on those with whom they come in contact. As in sowing choice garden seeds we see the results in improved flower yards, so in sowing just, honest, good, pure, true thoughts we see the results in better mothers, better children, and a better citizenship.

The California Club women recognize this and they are endeavoring to keep the good of their communities in their thoughts.

The many blessings enjoyed today by the California women makes them thankful and grateful. They are desirous of preserving the history of the sturdy pioneers, who by privations and hardships made possible the present blessings. The women are actively engaged in preserving the old historical landmarks.

They are also trying to have forestry and its effect on waterways taught in the public schools.

The convention put on foot a movement to have the first week in March recognized as "Clean-up week" for the entire state. It was urged that all club women encourage the planting of trees and flowers and shrubs, so that all unsightly and ugly places might be turned into beauty and brightness and cheerfulness.

As has been said we must bear in mind the story of the king and his two servants. These servants he sent throughout the kingdom to gather all the plants they each found. One returned and brought only weeds. Asked where the flowers were he answered that he saw none; he was gathering weeds. The other returned bringing only flowers. Asked why he brought no weeds he replied that he saw none; he was looking only for flowers. So we must be careful as to what we look for. If we look for weeds it is weeds we find. If we look for flowers we find flowers. Let us in Tropico look only for the flowers—for the good, the beautiful and the true.

The ladies in charge of the philanthropic work made it plain that those fortunate enough to possess knowledge and worldly goods should be willing to share with their less favored brother or sister. Remembering that giving does not impoverish, neither does withholding enrich.

It was urged that love for good music be stimulated and developed and the prediction was made that the popular "rag-time" was doomed because of the growing demand for good music on the part of the public. Tropico has already taken a forward step in this particular, the school now having a fine Victrola with many records of the masterpieces.

It was urged that American boys and girls be kept in America to study music. The assertion being made that the "musical atmosphere" was as pronounced in this country as it was abroad.

It was pointed out that many of the foremost painters and musicians were Americans living in European centers and teaching American boys and girls.

The reports indicated a healthy vigorous growth in all club activities and the withdrawal of the ticket put up by the southern portion of the state showed that the club women are working not only

One Year.....\$1.50
Contributions from readers are always welcome and very
much appreciated.

ARE YOU SATISFIED?

It is probably safe to say that nothing so retards the growth, development and improvement of a town as does an inadequate or insufficient domestic water supply. One of the first questions asked by a prospective citizen is: What about your water service? Do you have good water? How much do you have to pay for it? And is the supply sufficient?

Every man, woman, child, beast, bird, flower, shrub and blade of grass is effected by the water supply and service. Mankind can not live and thrive when it is forced to drink impure and unpalatable water. Gardens, lawns and flowers are necessarily limited or prohibited when the water supply is insufficient or the price too high.

At this time do we have in Tropico a water system that meets these needs? Can we commend the water system to a friend looking for a location? Are you satisfied with the service you are getting? Do you think you are paying a just and equitable price for the water and service you are receiving? Is the system as at present managed, such a system as will aid in the upbuilding and beautifying of the town?

These questions are vital, pregnant and important. There is no question but what our present water system, from some cause, is inadequate and inefficient. That statement will be conceded practically by every citizen in the city. The great question is: What are we going to do about it?

Are we going to hold our hands, like a lot of incompetents and let things drift along as they are? Are we going to see our town hampered and retarded, kept unimproved and unsightly, for want of water? Or rather shall we as men—real men with red blood in our veins—get to work on this problem and give to our city a water system that can and that will supply the needs of our citizens?

Shall we continue to force our real estate men as they have done in the past, to pay out of their commissions exorbitant charges to the water company for making connections before they can sell a house?

Shall we continue to compel the citizens to pay \$37.50 for every meter and four prices for every other improvement made by the water company and then let these improvements, paid for by private citizens, be charged up as additions by the water company and then have the company claim such improvements as their improvements and demand that they be allowed to charge interest on such additions?

Shall we continue to jeopardize every man's home in Tropico for lack of water?

What good will our fire fighting equipment do us when we get it if we have no water? The most complete fire fighting apparatus and the most efficient men in the world would avail us but little with water standing only two feet in the reservoir.

The present company may be doing the best they can, but I know and you know we do not have the

water service we should have, and for my part I am not satisfied to allow things to drift along as they are. I am not willing to have our beautiful little city held back and hindered in its development for lack of something that could be so easily supplied. I am not willing to levy a tribute on our real estate men and make them pay an unjust fee in order to do business. I want a little green lawn, a little garden; I want flowers and beautiful shrubs and I want my neighbor to have them, too. I want a reasonable fire protection and I want you to have the same. I do not believe in submitting to conditions that are unjust, unnecessary and undesirable from every standpoint.

Let us get to work and remedy this water situation. Let us think about it, talk about it and work on it until we obtain a water system that will not call for an apology every time the water question is mentioned to a stranger. Let us not cease our efforts until Tropico has a water system that will enable every citizen to have beautiful yards and a system of which we can feel reasonably confident of furnishing enough water at one time, to put out, at least, a fire in the hen house.

ARE WE MAKING HASTE SLOWLY?

The anti-alien act aimed at the Japanese does not appear to be any nearer solution than it was before the passage by both houses of the amended bill. It seems to be quite a question as to what the bill will really accomplish if it becomes a law. Under the provisions of the bill as finally passed aliens ineligible to citizenship cannot own or acquire land, but they may lease for a term of three years such lands. There is no provision in the bill prohibiting the releasing of such land for any number of three years. Then again there is considerable talk of invoking the referendum which would make the bill inoperative for at least 19 months.

Governor Johnson has agreed, so press reports state, to withhold his signature "a reasonable time" in order to give President Wilson an opportunity to consider what effect the bill will have on the nation as a whole.

Under the law I understand that Governor Johnson must, if the legislature remains in session, sign or veto the bill within ten days of its passage. The ten days will be up by Tuesday, the 13th.

Unquestionably many citizens of the state are opposed to the enactment of the bill and a number of eminent lawyers have gone on record as declaring the measure unconstitutional, so, taking everything into consideration it would seem that the administration at Sacramento has been rather over-hasty. The measure may be a good thing. Many people think it is; but it doesn't seem that it was the part of wisdom to rush the bill through without more careful consideration as to its ultimate effects.

A lie that is known as a lie fails to find lodgment or credence. Truth is the enduring quality and truth is wanted by all. There is a lie seeking to find lodgment in unguarded minds to the effect that a banker is unloading undesirable and unprofitable securities on one of his customers, who is supposed to be inexperienced in business ways. The lie is trying to say that on account of this customer's loyalty and patriotism to Tropico, that much injury and damage is liable to be done innocent parties and others burdened and afflicted. When this lie presents itself, if it does, remember the fable of the talking, lying serpent, and that Wisdom bids us handle serpents and change them into a staff upon which to lean. This lie would defraud the banker of his reputation for honor and honesty; would have us believe that he has lost his integrity and uprightness, and that his customer was culpably ignorant and unthoughtful. A lie known is a lie destroyed.

FEAR AND ITS ERLATION TO CHILDREN.

Mary W. Edwards.

Webster defines fear as a painful emotion or passion excited by an expectation of evil or the apprehension of impending danger. It embraces anxiety, solicitude, alarm and dread.

What would we not give to be free from fear and yet what are we doing to rid ourselves and those entrusted to our care of fear? And of what are we afraid?

It would be easier for me to tell you of what we are not afraid. We are afraid to lie down, to get up, to drink, to eat, to inhale the pure air; in short, we are afraid of everything and, yet the keynote of the Bible from Genesis to Revelation is "Be not afraid." Fear is inculcated into us as children, and we in turn inculcate it into our children and so on down the centuries.

The average mother governs her children through fear. How often do you hear a mother say, "if you do not obey me I will tell the policeman," or the bugaboo man, or some other terrible character, and I have even heard mothers tell their children, "I will tell God, and He will punish you." Thus laying the foundation for the expectation of evil or impending danger, and dread.

Those children who obey through fear are never really to be trusted. They are not taught to do right because it is right and with the golden rule as a foundation, but that they must obey or some impending danger will engulf them. Then comes the time when a child finds out that there is no bugaboo man and with this knowledge comes also a loss of respect for the parents who have taught him an untruth. I shall never forget trying to comfort a little child who was weeping bitterly. Finally, when she was quieted so that she could talk, I asked her the cause of her sorrow. She said, "My mamma lied to me." I then and there resolved that my child should never lose respect for me in that way.

There is a right way and a wrong way to do everything. Show children the right way and teach them to do right because no other way brings happiness.

Instead of governing our children through fear we should give them a principle to work from. We should teach them to obey from principle. Teach them to respect other rights; teach them

to love, for the apostle John tells us perfect love casteth out fear.

The Japanese have a proverb that fear is the beginning of all disease. And yet we, as mothers, are sowing plentifully these disease seeds of fear in our children's mentalities which in years to come will bear a bountiful crop.

First and last, fear is a mental condition.

We study lengthy dissertations on health and then plant seeds of disease in our children's mentalities through different forms of fear.

Another prolific cause of fear is the prayers taught our children. Dr. George L. Walton, a well known neurologist, in a lecture delivered recently at the Harvard Medical School, says man should live a life of happiness rather than one of frets and fears.

During his talk Dr. Walton stated the child of today after crawling in its crib has discarded, the "Now I lay me down to sleep" in favor of "Don't mention death to me or I will lie awake all night."

The Literary Digest commenting on the old,

"Now I lay me down to sleep,
I pray the Lord my soul to keep;

If I should die before I awake,
I pray the Lord my soul to take."

says some mothers feel that there is something gruesome in teaching children this time-honored prayer and proposes a substitute for those who wish it.

Of course what has been so dear to so many generations of little folks and grown folks is not to be driven out of the field by this one objection from sensitive parents, but on the other hand traditional acceptance won't overcome the objections of any mother who, as one mother recently testified, remembers having lain awake whole nights in childhood terrified by the fear of death which the little prayer had instilled. Any mother with that experience in her own life will certainly refuse to submit a child of her own to the peril of such a horror. Fortunately there are many beautiful substitutes that can be taught a child with equal ease and which will be in his later memory just as dear as "Now I lay me" can be to any one. One of the simplest and sweetest of such substitutes is from the kindly pen

of William Canton of England: "Father, whom I can not see,
Look down from heaven on little me;

SPRING TIME POEM.

Spring time brings forth the budding poets. The following was written by a father to his son who evidently liked to "lay abed."

"We send dis clock mit graciousness

To help you in your buisness.

We know you like to lay in bed
Ven ducks and chickens should be fed.

We know you lay in bed so lade
The time is sometimes after eight.

Und sometimes you in bed do lay
Ven you should be out making hay.

Und ven dey say—get out of bed
You stay und cover oop your head.

Und in der morning ven dere's ice
You always do refuse to rise.

Your wife, she always make der fire
Dis work would make you to expire.

Und ven dey ask vy do you stay
In bed so late, you only say.

How can I from my bed get opp
Ven I am sleeping sound—you pup.

Because in bed so long you laid
Your fadder to you named Afraid.

Afraid of work der people said
For short dey all now call you Fred.

Dis clock alarm ve to you hand
Let angels through the darkness spread

Their holy wings above my bed;
And keep me safe, because I am

The heavenly Shepherd's little lamb;

Teach me to do as I am told
And help me to be as good as gold."

Let us then teach our children more love than fear, and it will be reflected in their lives. Then we shall see that perfect love does cast out fear for fear "hath torment and he that feareth is not

made perfect in love." Und hope you it will understand. If you it will be sure to wind It will not fail you to remind.

Und ven from bed you oop should get
It will not let you sleep—you bet.

If der alarm you always set
It rings and rings all ready yet.

It helps sometimes ven you are broke
Your vatch mit lkey is in soak.

You carry round mit you dis clock
Undil your vatch you get from hook.

—Shakesbeer.

A NEW SMUDGE POT.

Colonel D. Blaikie Hislop, of Ontario, Cal., a veteran of the Boer War has invented a new smudge pot which he claims to be a great improvement over any thing now on the market, and to be smokeless.

It is claimed by the inventor that the orchard heater will radiate heat from six to ten times as far as the ordinary smudge pot, and that there is absolutely no smoke.

The principle on which the heater is built is that of cold air into a smouldering mass, setting it ablaze with a minimum of smoke. When the burner is lighted, the warm air is forced out through the top and cold air rushes in. A cone of metal, some three feet high, surmounts the pot. This become red hot in a very short time and a great amount of heat is radiated.

OVERHEAD IRRIGATION.

The overhead irrigation system installed by David Overholtzer on his ranch near Covina, Cal., was put into operation recently, and from every appearance is a complete success.

Overholtzer is pumping about thirty-five inches with a deep well pump, and is forcing the water with a centrifugal pump into his steel pipes. From these pipes the water circulates above the orchard, in a system of galvanized pipes, perforated. The demonstration showed that his pressure is good. The streams pour out to a distance of from eight to ten feet, and thoroughly drench the trees inside and out.

It has the same effect of heavy rain. The floor of the orchard is level and absorbs the water fast enough so that there is no runoff. Mr. Overholtzer can regulate the flow in its amount, or change the direction of the jets to any angle. The whole orchard gets an even amount of water. A good irrigation can be made in twenty-four hours.—Fruit World.

Mustard planted between the cabbage plants attracts the harlequin bugs and they can then be captured and killed.

PRACTICAL IDEAS.

In taking rose slips get a cutting with a part of the hard bark of the grown plant. Put it in a crock of sand and cover with a glass fruit jar. Keep a saucer of water under the crock.

Three time-savers in the kitchen are a bill hook for the grocer's checks, a box where tissue paper may be neatly folded to be used for polishing glass, mirrors, etc., and a large wire hook for all empty paper bags.—New Orleans Picayune.

When trimming a hat, says an exchange, always put a piece of muslin round the band underneath the ribbon or silk. This saves the hatpins from breaking the straw.

To prevent dirt getting under the finger-nails while gardening, rub the ends of the fingers with soap. Take care to get it well under the nails. When the hands are washed later, the soap comes out, bringing all the dirt with it, and there are no tell-tale marks of mother earth.

Rag rugs made of cotton wash well. These are inexpensive and are often just the thing for the kitchen, as well as other parts of the house.

To Clap the Climax

After one and a half years of constant testing of Berman's Clothes the High School Graduating Class Boys, as a whole, acclaimed that the merits of workmanship, style and quality in our suits warranted the order when that eventful hour of life was at stake. They—to a man—are being fitted by BERMAN.

OTHERS ARE OF THE SAME MIND.

HAPPENINGS

Mr. W. E. Burk of Central avenue, left for the east Friday, where he will stay from four to six weeks.

Mrs. James R. Hays of Kansas City, is enjoying a stay of several weeks with Mrs. Harry M. Jameson of 1428 Vine street.

Mr. and Mrs. J. A. Stone and family have returned to Tropic after an eight months' stay in Arkansas.

Mrs. W. R. Light and son Cleo, and daughter Mrs. A. R. Harris, are visiting relatives at Santa Rosa. They will return in about ten days.

Mrs. Fred Evans and Mrs. Albert Marple of Boynton street, were guests of Los Angeles friends on Tuesday.

Mrs. M. Chadwick and daughter of San Pedro spent last week with Mr. and Mrs. Robt. Danner, of 421 Wilkinson Court, and Mrs. G. E. Martin, of Palmer avenue.

Mr. and Mrs. Harry Evans of Los Angeles and E. Will Richardson were the guests of Mrs. W. A. Hough, 619 Central Avenue, Sunday afternoon.

Dr. and Mrs. A. O. Conrad of Glendale avenue, witnessed a production of "Get Rich Quick Wallingford," at the Burbank Theatre, Wednesday evening.

At a very recent date Mr. and Mrs. Fred Roosevelt of Los Angeles, were dinner guests at the home of Mr. and Mrs. Hal H. Davenport and family of Glendale avenue.

Mr. and Mrs. Edgar S. Ayres of W. Park avenue, entertained their old friends, Mr. and Mrs. J. Clarence Cook, Miss Orris and Clarence Jr., noted musicians of Los Angeles.

Frank Jennings, formerly a blacksmith at this place, is now erecting a blacksmith and automobile supply shop on San Fernando road at a point where this road is entered by the Verdugo road, just below Glassell Park.

"False to their trust" is the title of the seventh of the "What Happened to Mary" pictures showing at the Star Theatre. The usual number of thrills and tense situations are shown in this picture.

During the absence of the regular pastor, Rev. Henry Goodsell of this place, will occupy the pulpit of the Methodist church of Edendale. It is expected that Mr. Goodsell will fill that pulpit for the next six months.

Chapter L., P. E. O., of Glendale, will be held at the home of Mrs. E. U. Emery on Kenwood street. During the morning hours there will be a business session. Luncheon will be served at noon and the afternoon will be given over to pleasure.

Mrs. D. J. Myers, who has been passing the winter months with Mr. and Mrs. W. G. Black of this place, and a number of Los Angeles friends, left Sunday morning for her home in Boulder, Colorado.

A feature of the morning service of the West Glendale Methodist Church last Sunday, was the presence of the Local Carpenters' Union No. 563, Carpenters and Joiners of America. An appropriate sermon was delivered by Rev. Walton, pastor of that church.

The Myrth Club met Monday evening at the home of Fred and Ruby Borthick, 1308 W. 7th street. The evening was spent in playing five hundred, and head prizes were won by Miss Loraine Mitchell and Dr. Flint, consolation prize by Mr. Henry Moore.

Mr. Vernon Snively entertained the Bar Z's Saturday evening with a six o'clock dinner at his home. Afterwards a meeting was held, to see about a trip up Mt. Wilson, which will take place in June. The members attending were Charles Wells, E. Will Richardson, Frank Lytell, Fred Farnier, Burt Richardson, Thomas Thornton and James Gibson.

Quite a number of the members of the local Elks lodge attended the barbecue given Sunday by Eddie Maier at his big ranch at Santa Susana, near Ventura. The trip to the little northern town was made by auto and the boys report that they had the time of their lives.

J. C. Sherer, former editor of the Glendale News and now recorder of the City of Glendale, has during the past week been target for an amusing "jolly" story. It seems that recently Mr. Sherer, while performing a marriage ceremony in his official capacity, failed to collect the usual "toll"—a kiss from the bride.

Various members of the Glendale Tuesday Afternoon Club will be entertained at luncheon May 16th, by Mrs. Ray E. Chase, president of the club, at her home on West Broadway. Invitations

have been issued to the president's board, as well as to the chairmen of all the committees and curators of special club sections. Cards will be enjoyed during the afternoon.

On May 2nd, the faculty and students of the high school entertained the friends and patrons of the school with the annual "May Day" program. This consisted of various commendable exhibits. A feature of the afternoon was the May Pole dance, given by students of the school.

The next regular meeting of an enthusiastic mass meeting was held last Thursday evening in the high school auditorium for the purpose of boosting for the bond issue, the election on which subject will come before the voters of Glendale today. Addresses at that meeting were delivered by Prof. J. H. Francis, superintendent of Los Angeles city schools; Mrs. Charles H. Toll of Glendale, vice-president of the Los Angeles District Congress of Mothers; and Prof. A. B. Heacock, president of the Glendale board of education.

The Eladnelg Club met at the home of Miss Anna Woodbury, 419 Glendale avenue, Thursday evening, May the 1st. The evening being May night was spent "autoing" in Glendale, distributing flowers to houses, as is the usual custom, until 10:30, when they met again at the hostess' house and refreshments were served. The men of this club will entertain the ladies Saturday evening with a supper at Griffith Park. This is gotten up entirely by the men and the ladies will be the judges as to whether or not the men know anything about cooking.

The cobblestone drinking fountain, which for the past several years has been located at the corner of Broadway and Brand boulevard, was moved this week to another section of Glendale. The moving of this fountain was a piece of work for which much credit should be given to Mr. Beyle. The fountain was erected by the Glendale Valley Improvement Association at a cost of \$150. It has served its purpose well, but when the new brick block was erected at that corner by the First National Bank, it was found that the top of the fountain, and in fact the fountain itself, was too close to the side of the building. It is almost a landmark, and the members of the association which erected it were reluctant to see it torn down, and for this reason it was moved to another section.

SCHOOL NOTES

The annual tennis tournament of Los Angeles county was held Saturday afternoon at Hotel Virginia, Long Beach, Glendale having three representatives, Miss Ruth Brown, Edward Sadler and Harry Robertshaw. Sadler and Robertshaw in doubles were beaten by the Los Angeles Y. M. C. A. 6 to 4 and 6 to 3. Robertshaw and Miss Brown in doubles were beaten by Pasadena High School 8 to 6 and 6 to 4. Sadler and Miss Brown placed in semi-finals but lost in the finals.

A baseball game was played Saturday between Glendale High School and Harvard Military Academy on their grounds in Los Angeles. The game was rather one-sided, which led to another victory by a score of 7 to 1.

Friday afternoon, a very interesting program was given at the high school under the direction of Miss Jane Hawk and Mrs. Gibson. The different classes were each represented. The Freshman girls gave a very pretty "May Pole Dance." The Sophomore girls danced a fancy step on the lawn, and the Junior girls, swinging Indian clubs, kept in time with the orchestra music. After the exercises the school was thrown open to the visitors and the sewing, cooking, woodworking and drawing departments were on exhibition.

Rev. Day, of the First Congregational church of Los Angeles, gave a talk Monday on "Broncho Busting" which was very interesting.

Friday afternoon a ball game was played between Glendale High School and Hollywood on our home grounds. The game was well attended by the large crowd that attended the "May Day" affairs. This game proved to be another easy victory for Glendale, as they won by a score of 7 to 0.

The boys in the June graduating class of the Glendale High School recently gave a "bunch" order for their tugs to S. Berman the popular tailor, who is now as busy as a bee filling the order. This order has no other meaning than this—Berman's clothes are all right. Read his ad in this issue.

Rational

"Privates in the army eat more than the officers."
"Is that right?"
"Yes. There are more of them."

REAL ESTATE IS MOVING.

Real estate dealers report many bargains in this issue and if you are in the market for a good investment, you'll make no mistake in calling on any one of them.

The McAdams Bros. report this week the following sales: Third lot on Brand boulevard north from Park avenue on the west side of the street to Mrs. Elizabeth Porter of Los Angeles. Fourth lot on Brand north of Park on the west side of the street to Mrs. Jackson, of Los Angeles. Both of these lots were bought for business purposes, and it is expected that before a great while the new owners will erect buildings on their new holdings.

Two lots in the Hough tract, which runs on the west side of Central avenue, north of Park avenue to a local party, who buys the property for an investment. Two houses and lots on Oak Drive to Los Angeles parties, who purchase the places for homesites. Already both families have taken possession of the premises.

During the past few days much needed improvement work has been done on Broadway, between Glendale avenue and Brand boulevard. For several months this thoroughfare has been in such a condition that to ride across it made one almost seasick. It was better to run across at high speed so that only the top of the ruts might be touched. But that condition has passed away, and Broadway is now in fairly good condition. It has been suggested that Broadway be asphalted at the same time that Brand boulevard is treated in that way.

H. A. Jennings, the local blacksmith, while working at his shop on Tropic avenue, recently, met with the misfortune of having about half of one of his little fingers cut off.

James W. Pearson, of 1214 W. Broadway, reports the following sales this week: Second lot north of Gregg's hardware store on Brand boulevard to Mr. Boyd of Azusa, the consideration being given as \$6625. It is understood that Mr. Boyd secured the lot for business purposes and that there will be a block built at that location before a great while.

Lot on Burchett street west of Central avenue, to Mrs. Frank Grosvenor, now of Los Angeles, but recently of this city. Mrs. Grosvenor will erect a nice home on her new acquisition in the near future.

Lot on Orange street, between Third and Fourth streets, to Mrs. Louise Toll of this city.

Two lots in the Eagle Lake tract in Verdugo canyon have been purchased by J. J. Nesom, who intends building on the property in the near future.

VALUABLE ADDITION TO BUSINESS DISTRICT.

George Butler, recently of Huntington Beach, has purchased a lot on Brand boulevard between Third and Fourth streets, size 50x153 feet to alley, on which he is now laying the foundation for a two-story business block, which will cost between \$8000 and \$9000. It is the intention to make this building conform in appearance and quality with the other business buildings in that territory.

On the main floor will be two store rooms, each of 25x100 feet. The entire floor will be devoted to lodge purposes, there being a large lodge room and social hall and an ante-room.

Mr. Butler has purchased a residence on Kenwood street near Second street, of which he and his family have already taken possession.

NEW HOME ALMOST FINISHED.

The new home of the First National Bank, which the bank is erecting at the southeast corner of Brand boulevard and Broadway, is nearing completion. When finished this building, which, with fixtures will cost about \$35,000, will be the finest business building in this valley. It will be the first three-story block ever erected here. The ground floor will be taken entirely by the bank, while on the second floor will be office rooms, and on the third story, two- and three-room apartments. The building is entirely of brick, with white enameled brick front and side, and fancy brick canopy above the main entrance door.

The interior fixtures of the main floor will indeed be elaborate. There will be open and private rooms for the president and secretary of the bank, directors' room, spacious rooms for tellers, etc., safety deposit vault with lobby and two private booths, ladies' rest rooms and large waiting lobby. The partition separating the private from the public portions of the bank will be of marble with mahogany and glass top. The floor of the bank will be of tile, and there will also be tile trimmings. The mahogany finish will be carried out entirely on this floor.

The bank will possess a two-story safety deposit vault. This vault will be of concrete, reinforced with steel rods, having a six-inch mesh; also railway iron. The walls will be 12 inches thick. The steel in this vault weighs about ten tons. The first floor of this vault will be occupied by safety deposit and coin sections, while overhead will be a storage department.

The bank expects to be in its new quarters about the 15th of May, after which time the company's present home will retain its present fixtures and will be turned into a savings bank. With the modern banks that this valley possesses, backed by really trustworthy men, there is no reason why local residents should not patronize home industry and deposit their money in one of the local institutions.

OPPORTUNITY COLUMN

One of the busy places in Tropic is the Tropic Garage and Machine Shop, located on San Fernando road just south of Tropic avenue. W. E. Anderson, proprietor of the establishment, has conducted the place as a garage for the past year and a half. About four months ago, he moved his machine shop to 221 W. Tropic from the plant of the Los Angeles Basket Factory, on the west side of Tropic.

During the time that Mr. Anderson has conducted this business it has grown encouragingly and is constantly being enlarged to keep up with the increasing business. "I want the people of Tropic and vicinity to know just where I am situated," stated Mr. Anderson this week. "San Fernando road south of Tropic avenue is where I am located, and you might tell the people that I am prepared to do all kinds of work in the machine and auto line. I furnish estimates free and all work is guaranteed. I will be glad to meet all of my old customers at my present location, as well as any new ones who care to favor me with their business. We treat all of our customers 'white' and they seldom fail to come back. Business is good and we are wearing that 'perpetual smile'."

KNIGHTS OF PYTHIAS DANCE
On Thursday, May 15th, occurs another one of those delightful dances given by the Knights of Pythias, at their hall in Tropic. Busch's three-piece orchestra will furnish the music and a good time is guaranteed. Everybody is urged to be present.
(Signed) COMMITTEE.

Friday evening, May 9th, the Yeoman Lodge will give a dance in the K. of P. hall, Tropic. The music will be furnished by Busch's orchestra, and everybody is invited.

MONEY TO LOAN
I have some money to loan that can be repaid in monthly installments. W. G. Black, corner Park avenue and Brand boulevard.

LAWN MOWERS sharpened and saws filed at The Emporium—210 South San Fernando Road.

FOR RENT—Two apartments, 4 rooms and bath each; one furnished, other furnished if desired. Apply to Mrs. Bancroft, 123 S. Brand Blvd.

THE JACKSON Realty Co., Glendale, sold last week to Mr. Wm. Shelley a beautiful home. Mr. and Mrs. Shelley have been traveling abroad for several years and settled in this beautiful home near the foothills, where they can get the benefit of the beautiful scenery and pure air.

GUN CLUB

The Tropic Blue Rock Club shoots every Sunday morning, on their grounds, Tropic avenue, near the bridge.

Best scores made on 20-bird shoot last Sunday were:
Maurice Burke, 20 out of 20.
O. P. Martin, 13 out of 20.
Chas. Allen, 13 out of 20.
Best scores made on 25-bird shoot:
J. J. Burke, 15 out of 25.
Pat Devine, 15 out of 25.
O. P. Martin, 14 out of 25.
All shooters invited.

THURSDAY AFTERNOON CLUB

The Thursday Afternoon Club met at the home of Mrs. L. C. Rice, May 1st. Hostesses, Mrs. L. C. Rice, Mrs. Frank Davis and Mrs. J. A. Becker. The following officers were elected: Mrs. Chas. A. Barker, president; Mrs. Dwight Griswold, vice-president; Mrs. Chas. P. Findley, recording secretary; Mrs. H. E. Bowman, corresponding secretary; Mrs. O. E. Clemens, treasurer.

A short but interesting report will be made by the delegates to the Fresno meeting of the work of the convention.

The next meeting of the club will be held at the home of Mrs. L. C. Thornton, 805 Central avenue, corner Riverdale Drive. A delightful musical program is being arranged by Miss Helen Beatrice Cooper for the social hour.

Hostesses for the day will be Mrs. T. C. Thornton, Mrs. Harry L. Edwards and Mrs. E. W. Richardson.

There will be an automobile running on Central avenue to shorten the walk both ways.

The Thursday Afternoon Club held its third party at the home of Mrs. W. E. Burk, 525 Central avenue, Friday evening. About thirty-five were present. Five hundred was enjoyed and prizes were awarded to Mrs. C. D. Good and Mr. O. E. Clemens. The house was beautifully decorated with roses and dainty refreshments were served late in the evening. Assisting Mrs. W. E. Burk were Mrs. Chas. A. Barker, Mrs. Edward Lynch, Mrs. Joe

Webster, Mrs. John A. Logan, Mrs. Wesley Bullis and Mrs. J. Herbert Smith.

HAPPY FISHING PARTY

Several residents of Glendale recently composed a happy party that passed a few days in the country of the Upper Sespe, striving to capture the "finny creature." The place where the party made its camp was seven miles and a half from the nearest house.

Each day of the stay, the various members of the party were successful in catching the limit of speckled trout. There was trout for breakfast, dinner and supper, and when the party returned to Glendale the members brought with them snug little baskets of trout. The party was away from Friday morning until Sunday night. Those enjoying the trip were Dr. and Mrs. T. C. Young, Mr. and Mrs. H. E. Hall, Mr. and Mrs. C. B. Cunningham.

VIOLIN RECITAL.

A musicale was given last Friday evening by Mrs. Edgar S. Ayres, well-known violinist, and Mrs. Emil Tholen, accompanist. The program consisted of many fine selections, which were artistically rendered and much enjoyed.

Sign at the rear of a Chicago doctor's automobile: 12784 Ill.

The Retort Courteous

"Mike, I am going to make you a present of this pig."
"Ah, sure; an' 'tis just like you, sor!"

GREAT WORK BEING DONE

Continued from page 1.

for a principle but from Principle, and that personality does not influence their love and loyalty to a cause. Harmony prevailed throughout the entire meeting, the convention being a veritable "love feast," where compliments and gracious smiles were the rule and not the exception.

This concept as to the meaning of the State Federation emblem was given by our own Mrs. Mary Gridley, of Brand boulevard.

"Our State Federation wings are spread to take a higher flight into the atmosphere of progress and a more thorough knowledge of all that tends to the development of the noblest faculties and most angelic sympathies and social betterment of all mankind. The torch lights the way into the field of national harmony for progressive students who have an ever increasing desire to acquire a knowledge of the beautiful and good. The circle suggests unity and harmony without, and manifests our motto: 'Strength united is Stronger.'"

The Educational Touring Club which is being promoted by Mr. J. J. Burke and Miss Inez Hyatt, of Sacramento, and with which several Tropico and Glendale people expect to go have recently made arrangements to "take in" the West Indies in addition to its former itinerary. Stops will be made at Kingston, Jamaica, and at Antilla, Cuba. Great care is being exercised in selecting only desirable people for the club. The trip promises to be not only a pleasant one but a very instructive one as well.

NEW GARAGE OPENS.

Mr. I. E. Gould, late of Anaheim, will open today an up-to-date garage in the new Glendening Building on West Tropico Avenue. Mr. Gould is an experienced automobile man, and in addition to running a general repair and supply depot, has the agency for the Regal car, and expects a shipment of these cars within a few days.

BROWN VS. WHITE.

Professor M. E. Jaffa, pultry expert of the University of California, discussing the relative value of white and brown eggs, says:

"The white egg commands the higher price, but there is no reason why this should be so. Careful and comprehensive examinations of white and brown shelled eggs at the University laboratory have indicated that the variations between the chemical composition of the two varieties are so slight that they might even occur in two distinct analyses of the same sample.

It has been said by some that the brown eggs are richer than the white. This statement is not borne out by chemical analysis, and physical examination proves that the main points of superiority, although extremely slight, are possessed by the white eggs. The minute differences that are found between the two groups are exceeded by variation between the varieties within the same group. "Therefore, both from a chemical and physical point of view, there are practically no differences as far as the food value is concerned between white-shelled and brown-shelled eggs.

"It is stated by some commissionmen that if the brown-shelled eggs are carefully selected, clean, properly packed, etc., they will pay the same price for the brown as for the white-shelled egg, but such is not the rule.

"Probably the reason white-shelled eggs are to be preferred is because in the early days, when there was no such ruling against the brown-shelled eggs, eggs were shipped into the San Francisco market of all colors, sizes, shapes and degrees of cleanliness, and in consequence a broad general rule was made as indicated. It is to be hoped in the near future that the prejudice against the brown-shelled egg in most of the California markets will be wiped out, as it certainly should be, and when it is, there will be a greater incentive for raising varieties which lay the brown-shelled egg. It is generally conceded that those fowls laying the brown-shelled egg make the best table fowls."

A few gallons of paint would not be expensive, but if it were rightly applied it would add a great deal to the value of the place.

Over 30,000 trees were planted in the Antelope Valley of California, during the month of March. About 50 per cent of these were pears.

WITH OUR ADVERTISERS

This column will be of especial value both to our many readers as well as the advertiser. It is the aim of the editor of the Sentinel to co-operate with each and every advertiser to the best of his ability and inaugurating this column means one step in that direction. Bargains will be called attention to each week and all other news liable to be of interest chronicled herein.

Nearly two years have elapsed since Claude and Hearn Robinson entered the mercantile field by opening up a cigar and soda stand in a little 8x10 room at the corner of Park and Brand. That they have succeeded is proven beyond a doubt. From this little stand they gradually crept upward, adding to the stock and variety and enlarging the building until space and growing custom demanded better and larger quarters. The Henry building was therefore built and now the Robinson Bros., with a full and complete stock of groceries and vegetables rank among the best. On Friday, May 9th, they invite the public to call upon them, get acquainted and partake of their luncheon of pure foods. In their advertisement in this issue will be found all information.

The Tropico Dry Goods Store is offering their entire stock of glassware, granite ware and household notions at exactly cost prices. This move was deemed necessary to make room for the up-to-date stock of shoes and gent's furnishings. Bargain hunters in need of anything along these lines will find an opportunity to provide themselves with necessities at a big saving. The company has but lately opened and already bid fair to meet with success. Their ad will be found in this issue.

The basket Grocery formerly conducted by E. B. Case at the corner of Cypress and San Fernando Road, is assuming proportions hard to be overlooked. Each day brings new stock and new customers. The new owner has adopted a motto, "The store where Honesty is a Habit," and no doubt he will endeavor to live up to its standard. Readers should keep their eyes on his ad and come in on some of the good things to come.

The "Brighten Up Store" talks in this issue on "Modern Business Methods." Frank B. McKenney & Son, know what the people want and realize the advantage of printer's ink.

Another new store opened last week in our busy progressing city. The north room of the Henry block now houses Dutton & Mizar Co., with a stock of general dry goods, millinery and gent's furnishings. These ladies are out for a share of the patronage of Sentinel readers and will offer through the columns of this paper from time to time, a list of prices hard to beat. They are also prepared to do all kinds of dressmaking and ladies' tailoring.

TROPICO THE HOME OF AN ARTIST

Tropico claims distinction as being the home and workroom of at least one well known celebrity. "Art for art's sake" says someone, but however small is the bump of art to some of us, we can ill afford to overlook the fact that art is always recognized by even the lowly. In the days of the daguerrotype photography was not considered of much importance. Today with 20th century methods this same art has developed until nothing amazes us. To have a print complimented means much to the photographer. To have many praised is enough to turn his head. Not so with Tropico's photographer, Mr. E. A. Weston has just received word that three of his prints have been hung in the Canadian salon at Toronto, Canada. This is not the first time for him, for many salons hold his work.

Some three years ago Mr. Weston came to Tropico, where he established his studio after 17 years of experience. For some time he was connected with Mojave at Los Angeles, but when in search of color and tonal effects Tropico furnished the best inducements.

A large percentage of patronage comes to Mr. Weston from Los Angeles and surrounding country. Even transient or tourists from the east look in on him when in need of real work.

Mr. Weston has lately added to his equipment a new special camera to be used mainly for child studies, of which he makes a specialty.

The Glendale high school graduating class is among his recent prints and will no doubt be a credit both to him as well as themselves.

CHINA SHOWER

The home of Miss Katherine Hobbs, 600 Central avenue, was most beautifully decorated with roses Saturday, May 3. The occasion was a china shower given complimentary to Miss Mabel Evans Hough, daughter of Mr. and Mrs. W. A. Hough, who will become the bride of Mr. Glen Craig of Burbank in June. The

living rooms were a bow of hundreds of Cecil Bruner and Cherokee roses, and from among the roses peeped many pink hearts, all bearing a picture of the bride-to-be. After weaving a forest love story the guests all engaged in seeking for motto hearts, the winner to present the chest of china. The chest was made by the hostess, being a trunk shaped box completely covered with pictures suggestive of the happy event. During the afternoon dainty refreshments were served. Pretty place cards with a bunch of Cecil Bruner roses marked the places of the various guests.

Invited guests were Misses Mabel Evans Hough, honored guest; Mary Jane Evans Hough, Pauline Hamilton, Stella Miller, Amie Miller, Elise Vance, Blanche Shea, Ethel Baker, Jean McNutt, Lynn McNutt, Ester Jones, Eunice Jones, Lois Duncan, Carol Duncan, Gertrude Hatch, George Duffet, Emily Elias, Alta Stone, Ray Davis, Ruth Brown, Alpha Clement, Gladys Hamilton, Alma Turner, Luella Moore, Dorothy Hobbs, Mrs. Dan Kelly, Mrs. W. A. Hough, Mrs. Richard S. Todd, Mrs. John A. Logan, Mrs. Andy Stephenson, Miss Harriet Myers, Violet Turner.

RESOLUTION OF INTENTION No. 133 A RESOLUTION OF THE BOARD OF TROPICO DECLARING ITS INTENTION TO IMPROVE DUNBARTON STREET IN SAID CITY.

The Board of Trustees of the City of Tropico do resolve as follows: SECTION 1—That the public interest and convenience require and it is the intention of the Board of Trustees of the City of Tropico, State of California, to order the following street work to be done in said City, to-wit:

FIRST—That all that portion of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue be graded, oiled and tamped in accordance with plans and profile and specifications No. 9 for grading, oiling and tamping of streets.

SECOND—That a cement curb be constructed along each line of the roadway of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue, said curb to be constructed in accordance with plans and profile and specifications No. 2 for the construction of cement curbs.

THIRD—That a cement sidewalk five (5) feet in width be constructed along both side lines of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue, said sidewalk to be constructed in accordance with plans and profile and specifications No. 1 for the construction of cement sidewalks.

FOURTH—All plans and profiles referred to in this Resolution are on file in the office of the City Engineer of said City. All specifications referred to in this Resolution are on file in the office of the City Clerk of said City. Said plans, profiles and specifications are hereby referred to for a more particular description of said work and made a part hereof.

SECTION 2—The Board of Trustees of the City of Tropico determines that serial bonds shall be issued to represent assessments of twenty-five dollars (\$25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent, per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

SECTION 3—The Tropico Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in said City of Tropico, is hereby designated as the newspaper in which this Resolution of Intention, and notice of the passage thereof, shall be published in the manner and by the persons required by law.

SECTION 4—The Superintendent of Streets of said City of Tropico is hereby directed to post notices of the passage of this resolution in the manner and in the form required by law, and to cause a similar notice to be published by one insertion in said newspaper in the manner required by law, in said newspaper.

Adopted and approved this 1st day of May, 1913.

C. A. BANCROFT,
President of the Board of Trustees of the City of Tropico.

ATTEST:
S. M. STREET,
City Clerk of the City of Tropico, STATE OF CALIFORNIA, City of Tropico.

ss.
I, S. M. Street, City Clerk of the City of Tropico, do hereby certify that the foregoing Resolution was duly adopted by the Board of Trustees of the City of Tropico, State of California, and signed by the President of said Board at a regular meeting thereof, held on the 1st day of May, 1913, and that the same was passed by the following vote, to-wit:

Ayes: Bancroft, Conrad, Hobbs, Oliver, Webster.
Noes: None.
Absent: None.

S. M. STREET,
City Clerk of the City of Tropico.
